👤 ABOUT ME

I am an AI and Frontend Engineer with hands-on experience in developing deep learning models using Python, TensorFlow, Keras, and Google Colab. I am proficient in Git and GitHub, collaborating on diverse projects that continuously enhance my skills. My background includes data analysis and visualization using Pandas, NumPy, and Matplotlib. I completed a 120-hour AI training program at NTI, which deepened my theoretical and practical knowledge. On the frontend, I specialize in building responsive and dynamic web interfaces using HTML, CSS, and JavaScript. I'm known for my quick learning, analytical thinking, and commitment to clean, maintainable code. Passionate about innovation, I aim to contribute to impactful projects that drive real-world change.
